

# EARTHA

East Anglian Regional Telluric House Association

**19<sup>th</sup> September 2009**

**SPAB Building Conservation Fair  
St Nicholas's Chapel King's Lynn**

This is the first time that EARTHA have visited the SPAB Building Conservation Fair & although we did not give any practical demonstration, we exhibited a display stand with various photographs of what we did along with various clay-lump blocks compressive testing samples kindly lent by Colin Williams. In general the event was great fun and incredibly interesting for anyone interested in building conservation or traditional materials, with numerous crafts exhibited including lead casting, thatching, flint knapping and carpentry.
